Biofundamentals™ is an attempt to build a more conceptually coherent, rigorous and engaging introductory course in modern biology

- Front Matter

- 1: Understanding Science & Thinking Scientifically
2: Life’s Diversity and Origins

- 3: Evolutionary Mechanisms and the Diversity of Life

- 4: Social Evolution and Sexual Selection

- 5: Molecular Interactions, Thermodynamics & Reaction Coupling
6: Membrane Boundaries and Capturing Energy

7: The Molecular Nature of Heredity

8: Peptide Bonds, Polypeptides & Proteins
